Health Shops (Independent)	R2 600.00

DEFINITIONS

1. Ordinary Member:

Any business/trading entity engaged in the manufacture, importation, marketing, distribution of complementary medicine, dietary food supplements, health foods or health beverages in Southern Africa

2. Associate Member:

Any business/trading entity whose activities support the activities of the ordinary Members. These individuals/companies do not manufacture, market or sell their own complementary medicines, health supplements, health foods or health beverages.

Associate members also include those individuals/companies who provide services in some form or another (e.g. pharmacists, raw material suppliers, third-party manufacturers, marketing, merchandising and/or sales agents, retailers who do not have their own brands and consultants) to the Association's membership.

3. Affiliate Member:

Any business/trading entity/individual that/who is considered by the Executive Council to be supportive of the objectives of the Association and whose activities are affiliated to the industry. These companies/individuals do not manufacture, market or sell their own complementary medicines, health supplements, health foods or health beverages and do not provide services in any form to the Association's membership but who would add value to the Association itself (e.g. academics, institutions such as a university, an accredited individual or recognised expert in the field)
